Mediasite Player

Mediasite Player gives students, employees and audiences anywhere the most engaging lecture or webcast experience. Mobile-ready and unconstrained by traditional webcast layouts, watching live or on-demand Mediasite presentations is like being in the room with the presenter, but with flexible playback options and interactive tools to enhance learning and improve retention. Plus, advanced search capabilities let busy learners instantly pinpoint the information they need.

HIGH RESOLUTION SLIDES

See full resolution images of content captured from laptops, tablets, whiteboards, document cameras and more
