

# Rich Media Vodcast for Mediasite

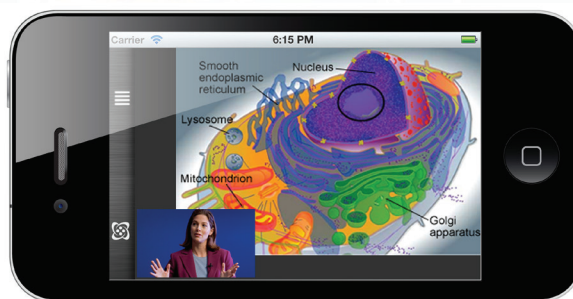

Rich Media Vodcast extends Mediasite Enterprise Video Platform's complete multimedia experience to iPads®, iPhones®, iPods® or any MP4 player. Downloadable Mediasite vodcasts expand learning opportunities for anyone on-the-go by removing internet access constraints while replicating the multimedia webcast with full support for audio, video and slides. Students watch or re-watch lectures and busy employees or remote staff stay up-to-date with important information, wherever they are.

## Creating rich media vodcasts is easy.

- 1 Choose** an entire folder or individual presentations to transcode
- 2 Pick the layout** best-suited to your content
  - Picture-in-picture video and slides (with a selection of video placement options)
  - Mosaic view for off-set video and slides (with a selection of video placement options)
  - Widescreen cinema video and slides (1280 x 720)
  - Audio/slides-only
  - Video-only
- 3 Customize** your vodcasts
  - Insert pre- or post-roll video
  - Apply video transparency
  - Customize background

Picture-in-picture

Mosaic
